

## Alaska Farm to School:

#### What Does the New Year Bring

Lyssa Frohling Farm to School Coordinator Division of Agriculture January 29<sup>th</sup>, 2019

#### Who is this strange woman in front of me?

- Lyssa Frohling lyssa.frohling@alaska.gov
- Come from a long line of farmers
- Weber State University 2015: Bachelors in Anthropology minor in GIS (I thought I was going to be an archaeologist)

#### Farm to School Goals

- Educate youth about healthy local food production and sustainability
- Provide healthy local meal options to our children in school meals
- Connect farmers with schools

#### How does Alaska measure up? Quite well!

- Alaska 2015 rates: 76% participation in Farm to School activities
- 29 districts and 252 schools
- Indicated interest in scaling up activities or buying more produce in the future

#### Upcoming Farm to School Census

- USDA census administered by the state
- Collect data on: who you buy from, how much you spend on local foods, what kinds of foods you have bought...etc.
- We need to keep celebrating our success!
- Your impact on this program is huge!

#### FARM TO SCHOOL GROWS LOCAL ECONOMIES

In our case study model, for every additional dollar of final demand for farm to school farm products, an additional \$0.93 for related sectors is generated in MPLS and \$1.11 in Georgia.

Explore more in our "Economic Impacts of Farm to School" report at **farmtoschool.org** 

- All Alaskans have access to Alaska Grown food and products
- All Alaskans value and choose Alaska Grown food and products
- All Alaskan farmers have a reliable and consistent market
- That every person, business, and organization in Alaska knows their role in supporting local agriculture

#### The Farm to School Census and how you fit

- You have an impact on Alaskan Agriculture
- How do you support our mission at the Division of Agriculture?
- How do we measure success and celebrate that?

#### Future funding
